

Request you not taken any action that might change, cancel, negate or override the Telephone Privacy Laws currently in effect in the state of Indiana. I'm a mother who also works a full-time job outside the home and I spend an hour driving to/from work each way. Naturally, I value the time I spend at home and wish to do so without receiving unwanted calls from telemarketers. Since signing up with the IN State Attorney's Office, I have been free from the annoying calls by telemarketers and wish it to stay that way.
